

DIY Research Data Management Training Kit for Librarians: Questions for reflective writing and discussion

Ethics and Copyright (see Data protection, rights & access in MANTRA)

- 1) Which, if any, professional or scholarly societies might have ethical guidelines relevant to your researchers' subject areas?
- 2) What are the pros and cons of 'opt-in' versus 'opt-out' consent?
- 3) Can you think of any hypothetical studies involving human subjects where consent would not need to be obtained?
- 4) What kinds of personal, sensitive information might your researchers be collecting? What precautions would be needed to safeguard it?
- 5) How does the Freedom of Information Act deal with research data?
